MEETING WITH MR. ABDUL HAKEEM BALOCH MNA

Mr. Hakeem Baloch - MNA visited MMI Hospital on Tuesday 18th July, 2017. The purpose of his visit was to attend a meeting with the MMI Hospital management and the Doctors to discuss the Hepatitis C Camp and its outcome.

He greatly appreciated the hospital's team for their extraordinary management of the camp and to facilitate the patients with commitment and professionalism, especially Marketing Department and Dr. Shoaib Siddique. During the meeting, it was decided to arrange more camps of "Hepatitis C".

SINDH CHIEF MINISTER SYED MURAD ALI SHAH VISITED MMI HOSPITAL

Sindh Chief Minister Syed Murad Ali Shah visited Memon Medical Institute Hospital, accompanied by Minister of Health Dr. Sikandar Mandhro on July 10th, 2017.

He was welcomed by Mr. Peer Muhammad Diwan, Founder Honorary Chairman of MHEF, Mr. M. Shabbir Kassim Honorary Chairman of MHEF, Mr. Abdul Razak Diwan, Mr. Ajaz Saya, Mr. Shabbir Diwan Honorary Trustees and other hospital officials.

Syed Murad Ali Shah visited different departments and was briefed by leading consultants about the different facilities of the hospital. He also met different Patients and spent time with them.

He was extremely delighted by the facilities provided by MMI Hospital. During his address on the occasion, he said, "It has been a pleasure to be at a great institution "Memon Medical Institute Hospital" and see excellent work being done for the poor communities. We are delighted to see the facilities and have supported MMIH for their remarkable contributions for the people of Sindh".

During the meeting, Dr. Rizwan Azami Chief Executive Officer briefed about the facilities of the institution and the projects which are initiated to serve the general public, including Hepatitis C Program, Polio, Plastic Surgery Camp and others.

Mr. Abdul Hakeem Baloch, MNA also shared his experience of MMIH Hepatitis C camp in District Malir and greatly appreciated the remarkable contribution of MMI Hospital for the patients based in his constitutional jurisdiction. The meeting was also attended by Mr. Raheem Baloch, trustees of MHEF and hospital management.

Karachi: (July 10th, 2017): Sindh Chief Minister Syed Murad Ali Shah visits different facilities of Memon Hospital at Salfora Goth.

Karachi: (July 10th, 2017): Sindh Chief Minister Syed Murad Ali Shah being presented a shield at Memon Hospital.

SEMINAR ON HEPATITIS

MMI Hospital has initiated several programs in the issue of Hepatitis C to persuade common people to take proactive approach to Hepatitis.

In continuation of this commitment, MMI Hospital organized a “World Hepatitis Day” seminar on 28th July 2017 to raise awareness and influence for real change.

Dr. M. Shoaib Siddique, a renowned Gastroenterologist delivered a very useful presentation on Hepatitis C causes, prevention and its treatment. He explained about the causes and shared his experiences with the patients effected by this disease. He also shared that this disease is a big threat to the nation and we must take immediate measures in order to address this national challenge.

This session was attended by Dr. Mansoor ul Haque, a senior and renowned Gastroenterologist and Dr. Rizwan Azami - CEO MMI Hospital. A shield was presented by Dr. Rizwan Azami to Dr. M. Shoaib Siddique for his useful presentation.

14TH AUGUST - INDEPENDENCE DAY CELEBRATION

Memon Medical Institute Hospital celebrated Independence Day on “14th August” 2017 with full enthusiasm. On this occasion, a flag hoisting ceremony was held.

An official get together was specially arranged in which MMIH management and staff members stands and sang Pakistan’s national anthem.

A cake cutting ceremony was also organized in the paediatric department in order to share the Independence Day happiness with the younger ones and to provide moments of rejoice for the patients of paed ward.

HEPATITIS C SCREENING CAMP

MMI Hospital had arranged a Hepatitis C screening camp in Gadap Town on August 19th and August 26th, 2017 with the support of Mr. Hakeem Baloch (MNA) and Mr. Raheem Baloch (care taker of the village).

Hilton Pharma supported with the screening facility. Dr. Mohammad Shoaib Siddiqui, Gastroenterologist from MMI Hospital, also accompanied the camp and had an awareness session for general public on prevention and cure of Hepatitis C. After the session, a question answer session was arranged in which he replied to all the issues of the public about the disease and its prevention.

The purpose of the camp was to screen the village people for Hepatitis C and provide full treatment to those who diagnose with Hepatitis C disease. We have screened over 1400 people in both the days including males and females from various age groups.

The cost of the treatment is going to be supported by MMI Hospital, Dhoraji Youth Services Foundation, All Pakistan Memon Federation and Mr. Rahim Baloch. "Hilton Pharma also played a vital role by supporting the screening camp and also provided the Hepatitis C medicines on subsidized rates."

DAWN SUPPLEMENT

Foundation

"It is a matter of great delight and satisfaction for me to share that MHEF (MHEF) is now an organization with an advanced and the world leading health care services that encompasses all the cardiac care of the region of World Heart Day. The MHEF Memon Medical Institute Hospital has come a long way since its inception and this new facility stands as a gift to the people of Karachi."

Cardiovascular Disease: what you need to know about it

By Ahsan Waqar Khan

Remember the aim of the message of CVD is awareness and beyond the scope of the great majority of the people, especially in developing countries. In Karachi, the prevalence of CVD is at a younger age as compared to the Europe and North America. Memon Medical Institute Hospital in Karachi, Pakistan and Health Road Promote CVD awareness in the region. We made it our responsibility to fight this chronic, preventable, leading cause and risk of premature and disability.

* Non-modifiable risk factors:
Physical Inactivity:
Very minimal or physical activity for the life is most of the time a bad factor to work. Help to maintain weight, reduce the risk of CVD by 50 percent. It helps to control blood pressure, lower bad cholesterol and raise good cholesterol. Exercise helps to control obesity and reduce the risk of Type 2 Diabetes, which can lead to atherosclerosis, which can
