## NEWSLETTER

---

JULY - SEPTEMBER 2020

## CEO MESSAGE

*We are presenting the quarterly newsletter of Memon Medical Institute Hospital for the period of July - September, 2020*

We have started the Covid-19 ward with the latest equipment and the dedicated staff to serve the Covid-19 patients. The ward has been established as per the international standards and the safety measures. It is a purpose built separate unit to maintain needs of isolation from rest of the hospital.

We are also thankful to Rotary International for their generous donation of four Ventilators for Covid-19 Ward. These Ventilators enhanced our capabilities to tackle the coronavirus disease as the patients with shortness of breath and pulmonary disease are mostly dependent on the Ventilator, as the only remedy for life.

We are continuously serving the community and offering the Covid-19 tests at one of the lowest rates in the country. These tests are performed on the latest equipment by experienced staff the results are accurate and precisely on time.

In this newsletter, we are informing our valued readers about our achievement of the digitalization of the medial record which is enabling the consultants to review the patients' report directly and instantly on the screen without the dependency of the human involvement. Our concerned team worked hard to achieve this milestone. This achievement can transform the way patient's confidential information is being secured, delivered and updated with maximum efficiency. This achievement can transform the way patient's confidential information is being secured, delivered and updated with maximum efficiency.

We hope that you'll find each article useful in terms of creating the awareness about various health issues and the facilities at MMI Hospital. We shall continue the voyage of providing the useful information which is helping you in living a healthy life.

*- Brigadier Dr. Malik Waqar Ahmad Awan TI (M)-Retd.*

Memon Medical Institute Hospital Covid-19 ward consists of Ten Beds including Four Beds in Intensive Care Unit - ICU with Four Ventilators and Six Beds in High Dependency Care - HDU

## ORIENTATION CEREMONY OF YOUNG TRUSTEES

Memon Medical Institute Hospital welcomes young trustees of Memon Health & Education Foundation and arranged orientation ceremonies. These orientation ceremonies were held to provide an opportunity for the young trustees to witness the operational strategies of the hospital and to visit various patient care departments. These ceremonies were held on 12th & 26th September, 2020.

The orientation ceremony included the multimedia presentation and the video documentaries about the services of Memon Medical Institute Hospital, the Free Medical Camps, Knee Replacements Camp, Cochlear Implant Camp and others. After the presentation, the detailed hospital round was arranged in which the trustees visited all the patients care areas and observed the facilities and the procedure of providing the treatment to the patients. They shared valuable suggestions and took interest in all the aspects of the healthcare including the hospital as well as the educational institutions.

## MMI HOSPITAL CELEBRATED WORLD PHYSICAL THERAPY DAY SEPT' 08, 2020

On 8th September, 2020, Memon Medical Institute Hospital celebrated World Physiotherapy Day. We celebrate this day every year with series of events and activities including the public awareness sessions & free medical camps, distribution of brochures about the physiotherapy and others.

Being a responsible organization, we have stopped all such events where there can be possibility of mass gatherings and get together due to the Corona Virus pandemic. A cake cutting ceremony was held in which Brig. Dr. Malik Waqar Ahmad Awan TI (M) Retd., Chief Executive Officer of Memon Medical Institute Hospital, Mr. Masoom Warsi General Manager Information Technology, Mr. Mohabbat Ali, Manager of Physical & Rehabilitative Medicine of MMI Hospital and other employees attended the ceremony. The ceremony was also a token of appreciation for the department for the myriad achievements during the challenging period of pandemic.

## FREE MEDICAL CAMPS

### KNEE REPLACEMENT & GENERAL SURGERY

Memon Medical Institute Hospital organized Free Knee Replacement Camp on September 13, 2020. Before Covid-19, we were organizing free medical camps on every Sunday and it was suspended due to the Covid-19 pandemic.

The camps was arranged to provide complete free treatment to the deserving patients. We are bringing the world's famous knee implant brand and operated by Dr. Amjad Gulzar - MBBS (Karachi, Pakistan), FRCS (Edinburgh, UK) MSC ORTHO LONDON, MD CANADA, Orthopedic surgeon of MMI Hospital.

The General Surgery camp was also arranged on September 20, 2020 which was attended by large number of patients. The patients received free surgeries from our experienced general surgeons.

We have resumed the free medical camps on every Sunday with the strict safety compliances and standard operating procedures are implementing for the patients, attendants and the employees. These compliances are ensuring face masks, social distancing, using of hand-sanitizers and encouraging patients to wash hand with liquid soaps.

## BREAKTHROUGH IN HEALTH INFORMATION MANAGEMENT SERVICES DEPARTMENT

Health Information Management Services Department (HIMS) has introduced EMR Electronic Medical Record in Memon Medical Institute Hospital in order to advance towards a more seamless flow of information by digital means.

As now the whole world is radically transforming by digital technology, healthcare also leverages in digital advancement with respect to the storing, securing, retrieving and providing of medical records by Electronic Medical Records (EMR).

- Using Electronic Medical Records (EMRs), patient's complete history and all the medical data can be recorded and stored appropriately in a centralized system which reduces chance of error.
- A better step towards providing accurate, up-to-date and complete information about patients.
- Enabling quick and more coordinated access to patient records.
- Ensuring privacy and security of patient confidential data, by limiting access within the department and the respective doctors only.
- A cost effective measure by decreasing usage of papers.
- With EMRs, information is available whenever and wherever it is needed just at a click.
- A more comprehensive view to a patient's record since it will provide each and every document along with the laboratory and radiology reports and images.
- Enhancing the productivity and efficiency in management of medical records.
- Physical Space and Storage issues, will easily be rectified as it will require to keep medical records on the "server".
- By Providing better tracking and more standardized documentation following the UFO formulated, EHR has a benefit to potentially reduce error chances.
- Ensures that the process become faster by limiting manual work.

## ROTARY INTERNATIONAL DONATED VENTILATORS FOR COVID-19 WARD

### **Memon Medical Institute Hospital would like to thank Rotary International for their generous donations of Ventilators for Covid-19 ward**

We have received Four ventilators from Rotary International at such a crucial time when we desperately need these equipments for saving the precious life of the patients, suffering from the Covid-19 disease.

We requested Rotary International about the urgent need of these equipments. We are very grateful for their quick response in donating equipments and it has enhanced our capabilities to tackle the coronavirus disease.

Donated By:

*Thank You*
